Expansion of the pastry line to include bakery products.

2023

Farcimax® Lemon Curd
A filling cream winner of several international awards.

Opening of the production plant in Colombia.

2024

ISO 14001
BUREAU VERITAS
Certification

ISO 14001:2015 Certification
PreGel Italy obtains this important certification, which is the regulatory benchmark for managing the environmental aspects of organizations.

CERTIFICATIONS

IMPRESA CHAMPION 2024

This prestigious award is based on research carried out by Italy Post's Research Centre in collaboration with L'Economia del Corriere della Sera, which analysed the Italian companies that have performed above average between the years 2016 and 2022, among which PreGel appears in the top 300. PreGel has been Impresa Champion since 2019.

BRC GLOBAL STANDARD FOR FOOD SAFETY

Since 2011, we have been BRC Global Standard for Food Safety certified, now confirmed with AA grade. The BRC certification is recognized worldwide and it offers a series of guidelines to ensure that an efficient system for the production of high-quality food products is in place. These standards focus on quality and food safety, and a complete application of HACCP as an integral part of the system and throughout all aspects of the company. The achievement of this certification demonstrates the company's commitment to our customers and to our ongoing pledge to producing high-quality food.

ISO 14001:2015

PreGel Italy is ISO 14001:2015 certified. This standard represents the normative reference for companies and organizations with an Environmental Management System aimed at managing environmental aspects, meet legislative compliance obligations and address and assess risks and opportunities.

SQF

PreGel America is a SQF certified supplier. The Safe Quality Food (SQF) is an internationally recognized food safety and quality certification program administered by the Food Marketing Institute (FMI). It ensures that all suppliers in the food chain effectively implement robust food safety control systems, and it demands evidence that both a rigorous and credible food safety management system and continuous monitoring procedures are applied.

KOSHER

Our Kosher products satisfy the requirements of Jewish law in regards to the ingredients and process involved in the production of food or food products..

HALAL

Since 2011, PreGel has maintained its Halal certification. Halal-certified products follow Islamic food preparation and ingredient standards in keeping with the Halal lifestyle.

NOCCIOLA PIEMONTE I.G.P.

Since 2013, PreGel has maintained its I.G.P. certification for the Classic Paste product "Hazelnut Piedmont I.G.P.". This certification contributes to the development of a sustainable model, enhancing the quality of the resources from local communities in Italy. The product "Hazelnut Piedmont I.G.P." meets the EC Reg. 1151/12 requirements on the protection of geographical indications and designations of origin for agricultural products and food.

PreGel aims to guarantee its customers the possibility to meet the demands of the market, offering products that meet the needs of modern consumers and their specific requirements related to food intolerances and different lifestyles.

That's why it offers a wide range of stated references:

Please note: PreGel guarantees its declarations only on products with original and undamaged packaging that, before being put on the market, are subjected to careful analysis and controls.

BASES

Over the years, PreGel has worked hard to create high quality Bases specifically researched to meet the needs of all gelato makers. Thanks to investments in Research & Development and continuous feedback from the market, the **PreGel Bases** category comprises a broad range of products for all gelato maker requirements. Bases using milk or water for hot and cold processes; Bases for fruit gelato, chocolate gelato, light gelato, soya gelato and even alcoholic gelato.

The range of bases comprises products made from balanced combinations of ingredients that provide the resulting gelato with an optimal texture in terms of creaminess, scoopability and storage life. These are the characteristics that enhance the flavor of the **Traditional Pastes**, **ForteFrutto** and **Verafrutta** ranges.

NEW 2025
BASE BISCO MIX™
see product details on page 16

HOT PROCESS BASES

PreGel Hot Process Bases involve a production process consisting of two main steps: pasteurization of the white base and subsequent whipping of the mixture flavored as desired (with PreGel flavors).

Code	Product	Description	Flavor	Fats	Dosage	Packaging	Certifications
DOSAGE 50 g/L							
56608	BASE CREMISSIMA	Compact and spreadable texture.	Vanilla milk	Fat-free	50 g/L milk	8 bags of 2 kg (16 kg)	GF

COLD PROCESS BASES

PreGel Cold Process Bases are practical and quick products to prepare since they do not require any pasteurization process. Simply mix all the ingredients thoroughly when cold and proceed to whisk the flavored mixture as desired (with PreGel flavors). For best results, it is recommended that the liquid mixture be allowed to mature for at least 30 minutes in the refrigerator before whisking.

N.B. The Bases in this family can also be used as hot process bases with the exception of the Prontofast Base.

FRUIT BASES

PreGel offers several types of Fruit Bases that differ in the type of fats present, the dosage, and the presence or absence of milk derivatives. These different characteristics determine the preparation of gelato or fruit sorbets with a more or less creamy texture.

Fruit Bases can be made following the cold process that does not require pasteurization.

FLAVORS

PreGel offers a complete line of Flavorings to provide a personal touch and enrich a vast number of specialties with original taste.

Our **Cold Process Products** include concentrated powders that add the required flavor to gelato and sorbetto by the cold process.

Traditional Pastes are products of the highest quality which, added to the base before processing in the batch freezer, create a gelato with a unique flavor that will never be banal.

ForteFrutto are concentrated fruit-based pastes that PreGel was the first to propose back in the '70's for making delicious fruit sorbetto and gelato.

Verafrutta are pastes with a high fruit content that contain chunky pieces of fruit. Ideal for making gelato and ice pops with the authentic taste of the best fruit.

Prontofruit[®] are complete products in paste, to be prepared just adding water, to make creamy gelato flavor, soft serves, ice lollies and fruit granitas.

NEW 2025

PRONTOFRUIT® AÇAÍ & BERRIES

NEW

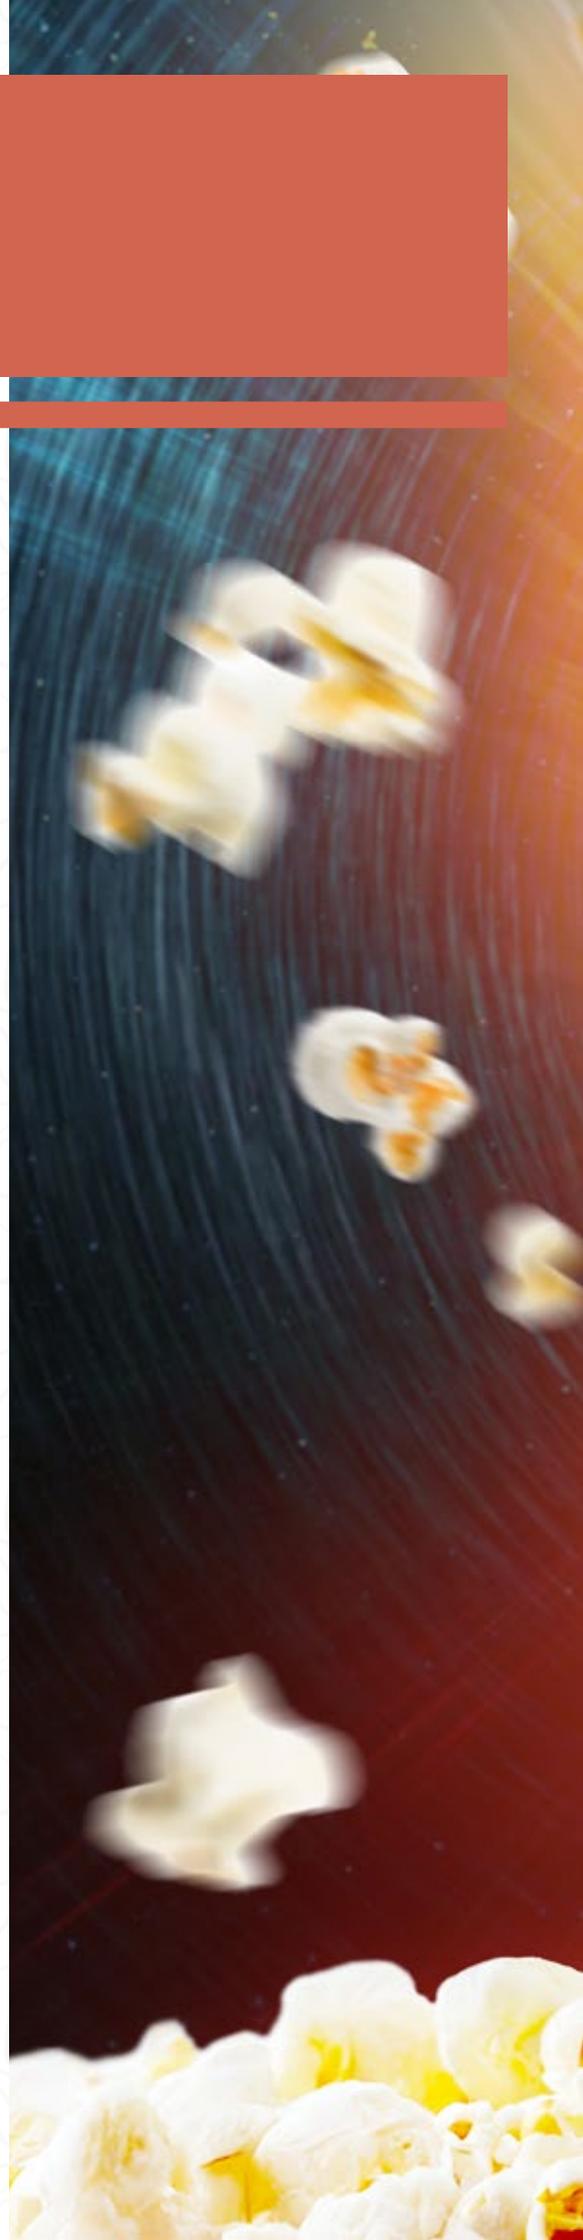

SPRINT

Broad range of complete cold process products for making delicious gelato, sorbetto and soft gelato in a simple and rapid way.

These products save time and resources while guaranteeing results with an optimum flavor and texture.

All the solid ingredients are perfectly balanced. Just add the liquid components, either water or milk, to obtain a finished product of the highest quality.

The **Sprint** line is available in two different types: **Sprint with pieces**, for mouthwatering artisanal gelato enriched by tasty pieces and **Sprint without pieces**, for excellent artisanal and soft gelato.

NEW 2025
SPRINT POPCORN
see product details on page 32

SPRINT WITH PIECES

Perfect for making excellent gelatos and sorbets, which are even richer in flavor due to the presence of pieces.

Code	Product	Description	Dosage	Packaging	Certifications

NEW 2025
ANGEL'S YOGURT
Gelato of the angels!
see product details on page 37

SOFT LINE PRODUCTS

The **Soft** line offers two bases for gelato soft (one for fruit flavors and the other for classic flavors) and a variety of complete products in powder form for quickly preparing soft gelato with the cold process method.

Soft products can be used in conjunction with the **Centorighe** line, a family of exclusive sauces studied and created to decorate soft gelato as it is dispensed by the soft-serve machine.

PRODUCTS FOR GELATO SOFT

These are powdered products to be used cold, specially designed to easily make a fresh, quality product, dispensed by the special machine at the very moment of ordering.

N.B. The Sprint without pieces line can be used to make soft gelato in the appropriate machines.

Code	Product	Flavor	Characteristics	Dosage	Packaging	Certifications

27606	CENTORIGHE STRAWBERRY N	6 jars of 1.2 kg (7.2 kg)	GF

LIGHT GELATO & WELLNESS GELATO

This category groups several products that are aimed at those who do not want to give up their wellness even in the gelato shop.

Light Gelato is the line of PreGel products with reduced calorie content or sweetened with fructose, sucralose or stevia, alternatives that allow you to reduce or eliminate the intake of sucrose from one's diet. In addition, some of these products are enriched by fiber.

The **Zero Line** responds to the new demands of modern consumers, who desire products with no added sugar, without sacrificing goodness and taste. In fact, the Zero Line contains only the sugars already present in the raw materials.

LIGHT GELATO

PreGel has designed a line of products that have a **reduced caloric content** or are sweetened with an alternative to sucrose and are therefore suitable for anyone wishing to reduce or eliminate sucrose intake from their diet. Some of these products are enriched with fiber valued for its beneficial properties.

BASES

VARIEGATES and DECORATIONS

Arabeschi[®] is the name of a broad range of thick, delicious ready-to-use sauces that enrich the taste and flavor of every gelato and confectionery specialty.

Smooth-textured or enriched with pieces, all **PreGel variegates** possess a thick, creamy consistency and are perfect for an infinite number of uses: from decorations for gelato pans or cups to tasty inclusions for pastry specialties.

Ciocolatina is the name for soft, luscious creams specially created for serving straight from the shop counter.

Crispy, crunchy **CrumbOlé** are ready-to-use products specifically created for a multitude of gelato, confectionery and beverage applications.

PreGel also offers a range of **Decorations and Grains** for garnishing gelato and confectionery preparations.

ARABESCHI®

Soft and creamy or crumbly and crisp, smooth and velvety or enriched with full-bodied fruit pieces, PreGel Arabeschi® are an indispensable ally in the daily work of all professionals. Made only from fine raw materials, they are available in a wide variety of flavors: from the most classic and well-known to the most refined and sophisticated.

Essential for enriching cups and tubs and for creating new recipes all the time. They are also perfect for decorating frozen yogurt and soft gelato.

In addition, due to their texture, the Arabeschi® line is also ideal for multiple pastry, pastry bakery, chocolate and beverage applications

TOPPING and COATINGS

This line of PreGel products includes toppings and coatings for all requirements: for garnishing gelato, sorbetto, soft gelato and frozen yogurt, or for preparing gelato pops, coating gelato cakes and individual desserts.

The **Topping** line is a comprehensive range of fluid sauces available in bottles and ideal for garnishing gelato sundaes, sorbetto, frozen yogurt, soft gelato, frappé and lots more. Easy, no-waste use thanks to the exclusive drip-free cap.

The products in the exclusive **Le Coriandoline** and **Stracciatella** lines liquefy when heated and then solidify when cooled. This makes them perfect for coating ice pops and gelato sandwich desserts, or for adding a crunchy touch to gelato pans and cups.

TOPPING

PreGel Toppings are high-quality liquid sauces available in many flavors and variations. These products can be stored at room temperature and be used not only for gelato, soft gelato, and frozen yogurt, but also to garnish many pastry specialties such as mousses, parfaits, etc.

All fruit references have a fruit content of more than 30 percent.

YOGGI® - YOGURT GELATO

PreGel launched **Yoggi®**, the first yogurt flavored gelato in the world, back in 1985.

Result of an idea raised by founder Luciano Rabboni and developed thanks to intensive research work, PreGel yogurt gelato has revolutionized the artisanal gelato market and immediately conquered its rightful place alongside the long-time favourites.

The soft **Frozen Yoggi®** version was launched a few years later, thereby creating a new line and giving rise to the proliferation of major international frozen yogurt chains, as well as thousands of independent retailers worldwide.

After 40 years from its creation, PreGel yogurt gelato continues to be a success on the international scene thanks to its unique, unrivalled taste.

YOGGI®

the first and inimitable
yogurt flavor for
gelato shop.

THE YOGGI® WORLD

Today, Yoggi® has become a family of products entirely dedicated to its unmistakable taste: from artisanal and soft gelato, to slushies and milkshakes, to products enriched with milk enzymes or sweetened with Stevia, to tasty pastry applications.
